

Muhammad Talha Khan

Computer Science Student | Software Development

Islamabad, Pakistan | talhakhan333000@gmail.com

github.com/TalhaBytes | [LinkedIn: Muhammad Talha Khan](#)

PROFILE

7th-semester Computer Science student at SZABIST Islamabad with practical experience in software development, Python, AI and data science, web technologies, databases, and networking. Built academic programming and machine-learning projects and a public GitHub dashboard, DevPulse. Completed a six-week network administration internship at the Ministry of Foreign Affairs. Seeking opportunities to contribute programming, problem-solving, and collaborative development skills.

TECHNICAL SKILLS

Languages: C, C++, Python, Java, JavaScript, Kotlin, SQL

Web: HTML, CSS, responsive interfaces, REST API integration; Git and GitHub

Foundations: Object-Oriented Programming (OOP), Data Structures & Algorithms (DSA), programming concepts, database systems, database design and management, data integrity

AI & data: Artificial Intelligence, Data Science, machine learning, data analysis; Linear Regression, Decision Tree, XGBoost; Tableau, Matplotlib

Networking & productivity: Wireshark, Cisco Packet Tracer, Microsoft Office Suite (Word, Excel, PowerPoint)

Professional strengths: Research, communication and presentation, multitasking, problem solving

EXPERIENCE

Intern - Network Administration Department

Ministry of Foreign Affairs (MOFA), Pakistan

Six-week summer internship, starting July 8

- Assisted in network monitoring and basic configuration tasks.
- Gained hands-on experience with networking tools and infrastructure.
- Observed real-world network security and administration practices.

EDUCATION

BS Computer Science - SZABIST Islamabad

Shaheed Zulfikar Ali Bhutto Institute of Science and Technology

7th semester | Expected graduation: 2027

Intermediate in Computer Science - completed 2022

Matriculation in Computer Science - completed 2020

Islamabad Model College for Boys I-10/1, Islamabad

PROJECTS

DevPulse - GitHub Developer Dashboard

HTML, CSS, JavaScript, GitHub REST API | github.com/TalhaBytes/devpulse

- Developed a responsive dashboard for public GitHub profiles, repository statistics, language distribution, and top repositories.
- Implemented light/dark themes, loading and empty states, caching, and handling for network failures and API rate limits.

Stock Price Prediction | Python, Machine Learning

- Built and compared Linear Regression, Decision Tree, and XGBoost models for stock-price prediction.
- Reported project R-squared scores: Linear Regression 99.5%, Decision Tree 97.8%, and XGBoost 96.3%.

Trivia Quiz Game | C++, Object-Oriented Programming

- Developed an interactive quiz game with score calculation and applied OOP concepts; reported a 20% improvement in class engagement during presentations.

Web Project / Personal Portfolio | HTML, CSS, JavaScript

- Created a web project recognized by peers for user-friendly design and functionality; built a responsive multi-page portfolio with animations and keyword search.

COLLABORATION & LEADERSHIP

- **Group project collaboration:** Coordinated tasks and timelines with classmates, completing the project one week ahead of schedule.
- **Study group leadership:** Led programming study sessions focused on OOP; reported a 30% increase in peer exam scores.

COURSES & CERTIFICATIONS

- **AI & Data Science using Python:** Practical machine learning, data analysis, and visualization techniques.
- **Microsoft Office:** Word, Excel, and PowerPoint for document creation, data analysis, and presentations.
- **Computer Typing:** Achieved 45 words per minute (WPM).

LANGUAGES

English - Intermediate | Urdu - Advanced
